

Pework Cloud Migration Canvas

Created by  A4BEE
www.a4bee.com

Use this Pework Cloud Migration tool to prepare your organisation for the journey to the cloud.

Check legal regulations

 Engage
Legal & Compliance Officer

List "must have" and "nice to have" regulations which are relevant for your business:

MUST HAVE

NICE TO HAVE

Skills

 Engage
HR and Procurement

Hire versus buy - decide which cloud related skills are worth developing in-house; and for which the best decision would be to cooperate with partners.

KEY CLOUD SKILLS:

Cloud Platform

INTERNAL OUTSOURCE

Microservices

INTERNAL OUTSOURCE

Serveless Application Programming

INTERNAL OUTSOURCE

API

INTERNAL OUTSOURCE

Databases (SQL / noSQL)

INTERNAL OUTSOURCE

DevOps

INTERNAL OUTSOURCE

Cloud Security

INTERNAL OUTSOURCE

Identify and assess your needs

 Check up
your strategic objectives

List key strategic / business goals and check if moving into the cloud can improve their realization, with short YES or NO:

_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO
_____	YES	NO

Estimate costs

 Engage Finance and Controllers

While planning cloud budget don't forget to include the following costs:

OPEX ← Estimated → **CAPEX**

Cloud service usage (based on provider pricing model)	
Data storage	
Data transfer	
Trainings / Skills development	
Additional professional / implementation services	

IT Security & Data standards

 Engage Security Officer

List IT security and data related standards together with compliance requirements, e.g. ISO, COBIT, ITIL, NIST, GDPR, SOC, HIPAA:
